

Red Beet Root

It is a good source of iron, carotene, enzymes, B-complex vitamins, fibre, calcium, phosphorus, and potassium. It stimulates the kidneys and the lymphatic system, and it facilitates digestion.

Broccoli Extract

Very rich in quercetin, it is a good antioxidant. It is a good source of provitamin A, carotenoids, fibre, sulforaphane, glucosinolates, and vitamins C and K.

Digestive Enzymes

We have added digestive enzymes for better absorption of this regenerating formula.

You can trust PEACEGREENS to:

- Nourish the body for constant regeneration
- Improve memory and mental capabilities
- Help digestion (decrease gas and bloating)
- Establish proper pH levels in the intestines
- Stimulate the body to detoxify itself naturally
- Increase and maintain the body's energy level
- Help balance levels of blood sugar in the body
- Enhance immune system performance
- Protect against free-radical damage
- Provide the highest level of probiotics available in a greens supplement: 10 different probiotics, 10 billion strength per serving

Suggested Use

Adults: Add 3½ level teaspoons of Peacegreens to 8 oz. of pure water or juice and mix thoroughly. Take with food. If you are taking antibiotics, take this product at least 2–3 h before or after them. It is necessary to drink 4–6 glasses of water during the day when taking Peacegreens to aid in cleansing. Consult a health-care practitioner for use beyond 1 month.

Ingredients

Each serving of 3½ teaspoons (9.8 g) contains:

Lecithin (from sunflower).....	2186 mg
Cili (<i>Rosa roxburghii</i>) fruit extract,	
6% vitamin C and 4,000,000 IU SOD	1 g
Alfalfa (<i>Medicago sativa</i>) leaf	992 mg
Barleygrass (<i>Hordeum vulgare</i>)	600 mg
Wheatgrass (<i>Triticum aestivum</i>) leaf juice powder	122 mg
Organic spirulina (<i>Spirulina platensis</i>)	1685 mg
Broken-cell, organic <i>Chlorella pyrenoidosa</i>	425 mg
Bee pollen.....	150 mg
Licorice root (<i>Glycyrrhiza uralensis</i>) extract,	
10% glycyrrhizinic acid	116 mg
Milk thistle (<i>Silybum marianum</i>) seed extract, 80% silymarin....	60 mg
Siberian ginseng (<i>Eleutherococcus senticosus</i>) root extract,	
0.8% eleutherosides	60 mg
Dulse (<i>Palmaria palmata</i>).....	33 mg
<i>Ginkgo biloba</i> leaf extract,	
24% flavonoid glycosides, 6% terpene lactones	20 mg
Green tea (<i>Camellia sinensis</i>) leaf extract, 50% polyphenols	15 mg
Bilberry (<i>Vaccinium myrtillus</i>) fruit extract, 25% anthocyanosides	10 mg
Grape (<i>Vitis vinifera</i>) seed extract, 95% proanthocyanidins.	30 mg
Royal jelly, 6% 10-HDA	150 mg
Rice (<i>Oryza sativa</i>) bran powder	383 mg
Red beet (<i>Beta vulgaris</i>) root	65 mg

Probiotics – 10 billion CFU provided by the following strains: *Lactobacillus acidophilus* R0418 (0.55 billion CFU), *Bifidobacterium longum* ssp. *infantis* R0033 (0.3 billion CFU), *Lactobacillus delbrueckii* ssp. *bulgaricus* R9001 (0.05 billion CFU), *Lactobacillus plantarum* R1012 (0.4 billion CFU), *Bifidobacterium breve* R0070 (0.3 billion CFU), *Bifidobacterium longum* ssp. *longum* R0175 (0.3 billion CFU), *Lactobacillus helveticus* R0052 (0.5 billion CFU), *Lactobacillus casei* R0215 (0.4 billion CFU), *Streptococcus salivarius* ssp. *thermophilus* R0083 (0.2 billion CFU), *Lactobacillus rhamnosus* R1039 (3 billion CFU), *Lactobacillus rhamnosus* R0011 (4 billion CFU).

Digestive enzymes (10 mg) – *alpha*-galactosidase (0.506 FCC *alpha*-galactosidase units), *alpha*-amylase (314.987 FCC *alpha*-amylase dextrinizing units), bromelain (19,200 FCC PU), cellulase (33.6 FCC cellulase units), glucoamylase (1.333 FCC AGU), hemicellulase (0.888 FCC HCU), invertase (2.133 FCC INVU), lactase (14.507 FCC ALU), lipase (80 FCC LU), maltase (3.467 FCC DP), papain (8000 FCC PU), pectinase (1.6 FCC endo-PGU), phytase (0.067 FCC FTU), protease I (1104.987 FCC HUT), protease II (196.8 FCC HUT), protease III (1.52 FCC SAP), dipeptidyl-peptidase IV (55 FCC HUT).

Other ingredients: Broccoli (*Brassica oleracea italica*) extract (38 mg*), acerola cherry juice (115 mg*), apple pectin (1033 mg*), *Stevia rebaudiana* leaf, arabinogalactan, inulin, ascorbic acid, potato starch, and vegetable magnesium stearate. *Amount per 3½ teaspoons.

PEACEGREENS

Sold exclusively to finer health food stores
newrootsherbal.com/store

HP0691

Improve your energy levels and get more out of life.

Peacegreens is a superfood formula containing 50 high-quality ingredients full of nutraceuticals, vitamins, minerals, essential amino acids, vegetable proteins, antioxidants, 10 probiotics, phytonutrients, fibre, and chlorophyll—all in a base of vegetable enzymes. It's the perfect way to fill your body with energy and a feeling of wellbeing.

One serving of Peacegreens provides the equivalent of six servings of salad a day.

PEACEGREENS contains:

Lecithin

Lecithin is an emulsifier of fats. It keeps artery walls clean, preventing the accumulation of cholesterol and other fats. It also helps to dissolve fat deposits that already exist. It is essential for cell-membrane health, especially in the brain, where lecithin improves memory, concentration, and general mental performance, as well as muscular control. It also helps to absorb vitamins A and D in the intestinal tract.

Cili Extract

Increases both SOD and glutathione status, with benefits that include improved immune function, robust antioxidant action, reduced fatigue during exertion, and increased endurance.

Alfalfa, Barleygrass, and Wheatgrass Juice Powders

The young grass of these organically grown cereals is picked at around 30 cm long in order to get all the benefits that these young grasses provide. They contain a wide variety of enzymes essential to human metabolism, and they are very rich in chlorophyll, which has an excellent capacity to clean, detoxify, and oxygenate the blood as well as the liver. Chlorophyll also stops the growth of unfriendly bacteria and helps to fight infections. All of these grasses have a high alkalinity, especially the alfalfa. This is an important fact, since the body maintains a higher level of energy and works better in an alkaline medium. These plants provide vitamins A, C, and K, as well as minerals like calcium, magnesium, iron, potassium, manganese, chromium, and selenium. Wheat grass does not have any gluten, because only the young grass is used, and not the grain.

Spirulina, Chlorella, Dulse

These three types of algae are a very rich source of protein and chlorophyll, and they have a high content of different nutrients. They are a rich source of vitamins B₁, B₂, B₆, B₁₂, E, and K; *beta*-carotene; essential amino acids; absorbable iron; *gamma*-linolenic acid (GLA); and essential fatty acids. They contain great amounts of minerals and trace minerals such as calcium, zinc, iodine, phosphorous, magnesium, manganese, sodium, potassium, copper, selenium, and chromium. Chlorella is especially high in RNA and DNA.

Apple Pectin, Rice Bran

These are a natural source of soluble and insoluble fibres that contribute to the health of the gastrointestinal system, stimulating and cleansing the intestinal tract, and lowering cholesterol levels.

Probiotics, Inulin, and Arabinogalactan

Probiotic culture (10 billion per serving): *Lactobacillus bifidus*, *L. acidophilus*, *L. helveticus* 8781, *L. plantarum*, *L. casei*, *Bifido infantis*, *B. longum*, *B. breve*, *S. thermophilus*, and *L. bulgaricus*, with fructooligosaccharides (F.O.S.) and arabinogalactan (A.O.S.).

This combination of friendly probiotics helps to restore and keep a balanced flora in the gastrointestinal tract. It improves the function of the intestines, helps the digestion process and the assimilation of nutrients, and enhances immune function by implanting friendly bacteria and reducing pathogenic organisms. F.O.S. is a nondigestible complex carbohydrate of vegetable origin that nourishes and provides an optimal environment for the breeding of friendly bacteria. A.O.S. encourages probiotic growth and stimulates immune reactions.

Royal Jelly

A very rich nutrient containing a wide variety of vitamins, minerals, and essential amino acids, as well as some antibiotic substances. It is well-known for its support of the immune system.

Bee Pollen

It has a high content of superoxide dismutase (S.O.D.), and contains 16 vitamins, 16 minerals, and 19 enzymes. It is excellent for the nervous system and the brain, and it fights fatigue and stress. It enhances stamina, and increases energy.

Licorice Root Extract

Licorice has a significant antiviral activity. This adaptogen herb is used to help the body adapt to stress by supporting the adrenal system. It has antibacterial properties, helps fight digestive and respiratory infections, and boosts the immune system. It has anti-inflammatory and soothing properties for the digestive and respiratory systems. It is also beneficial for chronic fatigue, asthma, allergy disorders, depression, and more.

Acerola Cherry Juice

Acerola berries are one of the most potent source of natural vitamin C and bioflavonoids known. The natural vitamin C facilitates the absorption of quercetin, an important bioflavonoid. Vitamin C is an antioxidant that helps fight viruses and bacteria, and maintains our skin elasticity.

Milk Thistle

Silymarin, the main active ingredient of this plant, strengthens the liver and promotes the growth of new liver cells. It detoxifies the liver and acts as an antioxidant.

Siberian Ginseng Extract

It is well-known as a tonic and stimulant for the whole body. It has antifatigue properties, and increases stamina as well as the ability to cope with stress. This root also aids mental functions.

Ginkgo biloba Extract

Research has shown that this herb has potent actions on the cardiovascular system. It acts as a circulatory stimulant, improving blood flow to the brain and periphery circulatory system, therefore helping memory and concentration. It has antioxidant properties.

Japanese Green Tea

High in polyphenols and catechins, it is considered an excellent antioxidant. It contains significant amounts of vitamins C and P. It has antibacterial and antiviral properties and helps to fight digestive and respiratory infections. It also boosts the immune system. It assists digestion and the proliferation of friendly bacteria in the intestines.

Bilberry

The berries and its pigments are believed to offer many benefits to the human body. The active ingredient of these berries (anthocyanidins) makes them a good antioxidant. Bilberry helps to maintain healthy capillaries, reducing their fragility; it protects the veins and arteries; and it is of benefit in vascular disorders. Clinical studies show that bilberry has a very positive effect on eye conditions: it improves visual acuity and night vision.

Grape Seed Extract

This extract is one of the most potent antioxidants known. Its antioxidant properties are 50 times higher than those of vitamin E and 20 times higher than those of vitamin C. Grape seed extract is absorbed very quickly by the body. It reduces capillary fragility, prevents collagen destruction and helps to restore elasticity in connective tissue.
