

# Squalene

Sourced from European olives

Beautiful skin from within

- Helps skin retain moisture
- Safeguards skin from environmental toxins
- Helps accelerate wound healing
- Helps protect sensitive skin and prevent dryness

**ISO 17025**  
Accredited Laboratory

# Squalene

Squalenes are complex organic compounds that owe their name to their original source being shark liver oil. New Roots Herbal Squalene is sourced from a more ethical ingredient: olive oil.

Squalenes are highly bioavailable and identical to those produced within the human liver. Their potent antioxidant action protects tissues throughout the body from free radicals. When secreted through the skin, squalenes act as a skin-surface lipid (SSL) to form a film that aids the skin in its most important task; protect the body from its immediate environment, and act as a barrier to environmental toxins. Squalenes further enhance moisture retention within the skin; well-hydrated skin not only looks younger: it's also better prepared to perform metabolic tasks such as controlling body temperature (sweating) and insulating the body from cold. Squalene oil also contains compounds that promote immune-system performance and accelerate wound healing.

Dietary squalene is fat-soluble and well-absorbed. When incorporated into skin cells, it also serves to protect from ultraviolet (UV) exposure.

New Roots Herbal's Squalene in convenient softgels is the natural selection for better health and beautiful skin from within.

#### Each softgel contains:

Squalene (from *Olea europaea* [olive] fruit) ..... 500 mg

**Also contains:** Natural vitamin E (from sunflower) in a softgel made of glycerin, bovine gelatin, and purified water.

NPN 80067729 · V0567-R1

#### Suggested use:

**Adults:** Take 2 softgels daily or as directed by your health-care practitioner.

**Manufactured under strict GMP (Good Manufacturing Practices).**
