Black Cumin Seed Oil

Do you suffer from allergies? Are adorable animals making you cry? Think Mother Nature has it in for you? You are not alone! Respiratory allergies such as allergic rhinitis affect 1 in 5 Canadians—that's almost 8 million people!

Symptoms experienced vary but commonly include continuous sneezing, runny/stuffy/itchy nose, itchy and watery eyes, sore and scratchy throat, nasal congestion, and coughing. People will often turn to other over-the-counter medications for relief, but these may come with side effect like drowsiness, dizziness, headache, dry mouth, and dry nose. Black Cumin Seed Oil is not known to cause these side effects.

Naturally sourced, **Black Cumin Seed Oil** helps reduce symptoms of allergic rhinitis, including sneezing, itchy, watery eyes, and stuffy nose.

Trusted for Thousands of Years

Nigella sativa, also known as black cumin, is an herb with a long history of use throughout the Middle East, Northern Africa, and parts of Asia. One of the identified active ingredients in *Nigella* is thymoquinone, a compound that is known to have anti-inflammatory effects on allergic rhinitis, along with antioxidant benefits. *Nigella* oil also contains oleic and linoleic acids.

New Roots Herbal's black cumin seed oils are made with organic, cold-pressed, hexane free black cumin seed oil, with 20% oleic acid and 50% linoleic acid.

NEW Black Cumin Seed Oil 1,000 mg softgels with validated thymoquinone content—one of the most potent natural allergy-relief products available on the market!

Popular **Black Cumin Seed Oil 500 mg** softgels with validated thymoquinone content—a perennial best seller in a smaller softgel.

Potent **Black Cumin Seed Oil** in liquid form with 2.0–2.4% thymoquinone—one of the highest thymoquinone content available on the market!

**Get back out in nature!
Take time to smell the flowers!
Frolic with your furry friends!**
